

Employee Onboarding Guide

Effective Date: 1 March 2026 | Version: 2.0 | Sample RAG Knowledge Base

Welcome to HomeCare Scheduler. This onboarding guide supports new caregivers and office staff through their first six months. It covers compliance, training, shadowing, app usage, probation reviews, and the documentation required before you work independently with clients. Complete every section in order. Your supervisor must sign off each milestone before you progress to the next stage.

Onboarding Timeline Overview

The standard onboarding path runs from pre-employment checks through probation completion. Most full-time caregivers complete shadowing within the first week and receive solo-visit approval in week two, subject to competency. Office staff follow the same compliance track but substitute shadow visits with system training and supervised roster management.

1. Pre-Employment & Day Zero Requirements

Before any client contact, HR must verify identity, right to work, and mandatory clearances. Incomplete files delay roster assignment and may affect payroll onboarding.

Requirement	Who Provides	Deadline	Notes
Garda Vetting / disclosure	Employee + HR	Before Day 1	No client visits until cleared
Proof of ID (passport / licence)	Employee	Day 0	Original sighted by HR
PPS number & bank details	Employee	Day 0	For payroll setup
Emergency contact form	Employee	Day 0	Updated annually
Reference checks (2)	HR	Before offer	One must be care-related if possible
Occupational health clearance	Employee + GP	Week 1	If role requires heavy manual handling

2. Mandatory Training Matrix

All caregivers must hold current certificates for the courses below. Upload scans to the employee profile. Expired certificates block solo visits until renewed.

Course	Required Before	Validity	Renewal Lead Time
Manual Handling	First solo visit	3 years	60 days before expiry
Patient Moving & Handling	First solo visit	3 years	60 days before expiry
Safeguarding Vulnerable Adults	Client contact	3 years	60 days before expiry
First Aid / CPR	Week 2	3 years	60 days before expiry
Infection Prevention & Control	Week 1	Annual	30 days before expiry

Course	Required Before	Validity	Renewal Lead Time
Medication Prompting (if applicable)	Before med prompts	2 years	45 days before expiry
Fire Safety Awareness	Week 2	Annual	30 days before expiry

3. Week 1 - Induction & Shadowing

New caregivers complete a minimum of three supervised shadow visits with a senior carer assigned by the roster office. Shadowing covers personal care, meal support, medication prompting (where authorised), documentation, and safe use of mobility equipment.

Day	Activity	Location	Supervisor Sign-off
Day 1	Office induction, policies, app login	Office / remote	HR
Day 1	Tour of documentation standards	Office	Team lead
Day 2	Roster review, travel, clock-in demo	Office + app	Roster manager
Day 3	Shadow visit 1 (AM)	Client home	Senior carer
Day 4	Shadow visit 2 (PM)	Client home	Senior carer
Day 5	Shadow visit 3 + competency checklist	Client home	Senior carer

- You must not work alone until your supervisor records solo-visit approval in the system.
- Ask questions during shadowing; note equipment, routines, and communication preferences.
- Review each client's care plan before accompanying your mentor on a visit.

4. HomeCare Scheduler App - Core Workflows

App Area	Primary Actions	Common Mistakes	Correct Approach
Visits -> Today	Clock in/out at client address	Clocking in from car park early	Clock in at door after arrival
Leave Requests	Submit annual/sick leave	Assuming verbal OK is enough	Wait for in-app approval
Client Profile	Download & read care plan	Skipping plan before first visit	Review plan same day as assignment
Visit Notes	Record factual care notes	Copying previous shift notes	Write fresh, accurate notes each visit
Travel	View calculated travel time	Ignoring delays	Phone office if >15 min late

5. Probation & Performance Reviews

All new staff serve a six-month probation. Reviews at month 1, 3, and 6 assess punctuality, documentation quality, client feedback, safeguarding adherence, and teamwork. Outcomes may include continued employment, extended probation, or termination if standards are not met.

Review	Timing	Focus	Possible Outcomes
Review 1	End of month 1	Attendance, basic competence, attitude	Continue / coaching plan
Review 2	End of month 3	Care quality, notes, client feedback	Continue / support plan
Review 3	End of month 6	Overall suitability for role	Confirm / extend / end probation

6. Onboarding Checklist

Milestone	Owner	Target Date	Completed (Y/N)
Garda Vetting cleared	HR	Before Day 1	
Mandatory training uploaded	Employee	Week 1	

Milestone	Owner	Target Date	Completed (Y/N)
App access confirmed	IT / HR	Day 1	
Shadow visits (min. 3)	Senior carer	Week 1	
Competency checklist signed	Supervisor	Week 2	
Solo visit approved	Supervisor	Week 2	
Probation review 1	Manager	Month 1
